and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Instead of charging service fees, why not lobby for a federal crime bill making the use of cellular telephones while a vehicle is in motion a federal crime punishable by imprisonment and a fat fine. The fine to offset your proposed fees.

It bothers me to see these rude, selfish, dangerous people flapping their lips on a cellular while they are driving, not paying attention to their duties as a driver. These conversations can wait until they can safely pull off the road.

The states are not doing anything. Maybe a federal agency can lobby enough to stop these potential killers, while at the same time, collecting the fees you want... From people who deserve to pay them. NOT the law abiding, or careful citizens.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Rob Anderson
